

**Directions:** Hand out the word puzzle and explain the instructions to the students. Students are instructed to find the words on the list that are related to the topic of "Touching Safety," and to circle each of those words. Each word will be in a straight line, but it may be written vertically (up and down), horizontally (left and right), diagonally (at an angle), and either forward, backward, or upside down (see the example, below).

**Example:** Find the following words in the puzzle below and draw a circle around the word or color it with a highlighter. The words are spelled out correctly in a straight line. There are no spaces between letters or between words in two-word phrases (For example, "SAY NO" will appear as "SAYNO"). However, words may be upside down, backwards or at an angle. Some letters may be used by multiple words.
